OFFICE OF
GENERAL COUNSEL

MEMORANDUM

SUBJECT: Inadvertent Errors in Supplemental Proposal for Clean Air Interstate Rule (CAIR)

FROM: Jeffrey R. Holmstead 
Assistant Administrator for Air & Radiation (6101A)

Lisa K. Friedman 
Associate General Counsel
Air & Radiation Law Office (2344A)

TO: The Administrator

A number of inadvertent errors were made in the process of preparing the signature package for the supplemental proposed Clean Air Interstate Rule that you signed on May 18, 2004. These errors were typographical and, in one case, a failure to omit certain language in the regulatory text to conform to changes made in the preamble. The attached red-line strike-out version shows the corrections made to the version you signed.

We recommend that you correct these inadvertent errors by signing and dating below.
